

Gift Exchange Rules

- The gifts should be inexpensive and wrapped. They stay wrapped until the end of the entire gift exchange.
- A “round” begins when a gift is taken from someone, and continues for 10 seconds, or until a gift is picked from under the tree*. Whoever doesn’t have a gift in hand when the count reaches zero has to pick from under the tree*.
- Gifts may not be hidden.
- Gifts must be taken and given up humanely.
- Each gift may be exchanged only once per round.
- The wrapping is part of the gift and may be kept.
- The first one to pick (#1) is also the last one to pick.

**"From under the tree" may actually be "from the table". Work with us. ::grin::*
